ARTICLE 1 – ESTABLISHMENT

The activation at Luiss Guido Carli University, for the academic year 2025/2026 – XLI cycle – of one additional position within the PhD Program in Politics (three-year program), whose details are provided in Annex A, an integral part of this call for applications. The specific admission competition is hereby announced for the awarding of one position with a scholarship funded by the Enel Foundation, aimed at developing a research project on the topic of “Energy Policy.”

The specific sheet (see Annex A) sets out the educational goals, research themes, the method and criteria for selecting candidates for the purposes of establishing a ranking order for admission.

Any additions or changes to what is set out herein and to the Annex provided will be published on the University’s website <http://www.luiss.it>.

ARTICLE 2 – ELIGIBILITY

Applications to participate in the competition for admission to the doctoral programs referred to in article 1 may be submitted by individuals in possession of all the mandatory requirements listed and clarified in the Annex A together with a master’s degree, a specialized degree or an Italian master’s degree under the former university system or an analogous academic qualification awarded abroad that is officially recognized in advance by the academic authorities if not already deemed to be officially equivalent. In order to obtain such recognition, a candidate who holds an academic qualification awarded abroad which is not already deemed to be officially equivalent must accompany his or her application with whatever documents are necessary to enable the Admissions Commission – consistent with the rules in force in Italy and the country where the qualification was granted and the international treaties or agreements governing the recognition of qualifications for further education purposes – to assess the qualification solely for doctoral program eligibility purposes. The qualifications must therefore be accompanied by all of the documentation specified in article 3 that is necessary for their assessment.

In the case of admission, applicants holding foreign degrees are required to submit to the PhD & Education Funding Office either the Diploma Supplement (the “access to further studies” section must necessarily be complete) or an Attestation of Comparability of the foreign degree issued by

CIMEA. The Certificate of Comparability can be found at the following link: <https://www.cimea.it/>.

It is further specified that all candidates who submit self-certification under Presidential Decree No. 445 of 28 December 2000 will be admitted to participate in the competition subject to verification of the self-certified statements and that the University may at any time during the process, including after commencement of the doctoral program, check the veracity of the statements submitted.

It is further specified that, at the time of application to the PhD Program, each candidate must already hold a master's degree. **Therefore, applicants with the status of “graduating student” are not eligible to apply for this call.**

In the event of a false statement, the University may order – by a reasoned decision of the Rector – that the candidate be removed from the competition or the doctoral program without prejudice to ensuing criminal implications for the candidate.

Candidates who have already benefited from a PhD scholarship in Italy are not eligible to receive the scholarship offered under this call for applications.

This call for applications does not provide for positions without a scholarship.

ARTICLE 3 – ADMISSION APPLICATIONS

All applications for admission must be submitted exclusively online by the deadline set out in this call for application and cited in the relevant specific Annex hereto.

Candidates are responsible for all information that is inserted into their online form and the validity of the certification/self-certification submitted. In that regard, candidates are obliged to consult the University's Code of Ethics, with particular regard for points C.1.1. and C.1.2.

Furthermore, in compliance with the Guidelines for drafting and publishing selection calls and the Guidelines for determining call requirements (approved by the Academic Senate and the Executive Committee at their meetings of 2 July 2025 and 9 July 2025, respectively), candidates

are required to duly complete the form available in Annex B of this call and to attach it to the documentation mandatorily requested for the application.

The University reserves the right to check the information and validity of the documents submitted. In the event of a discrepancy in what has been declared, it may exclude the candidate at any time, during or after the competition.

The online procedure should be completed by accessing the University's website at the address specified in the relevant specific Annex.

Once the procedure for submitting the application has been completed, the candidate will receive a printout thereof as proof of successful completion of the procedure.

The application is to be considered for all statutory purposes a self-certification of the candidate's declared personal details and qualifications.

In order to apply, in accordance with the PhD program of interest, each candidate is expected to submit a proof of possession of a master's degree, a specialized degree or Italian master's degree under the former university system or an analogous academic qualification awarded abroad, along with all the documents required in the relevant specific annexes hereto.

Luiss reserves the right to check all documentation submitted by candidates. Should the qualification exhibited not fulfill the requirements set forth in this call for applications and not permit enrolment in the doctoral program, candidates who have made false statements shall be excluded from the program with an obligation to refund any improperly received scholarship installments, without prejudice to any criminal implications that may arise.

The deadline for applications is **16:00 CET (UTC+1) on 14 November 2025**.

ARTICLE 4 – ADMISSION EXAM

Admission is based on what is indicated in the relevant specific Annex A hereto.

Candidates will be summoned to the written exam or/and interview, by e-mail sent to the e-mail address specified in the application form for the competition filled out online. Notice of the exam will also be given (at least 7 days prior to the date that the exam is scheduled for) on Luiss Guido Carli's website at <http://www.luiss.it>.

In order to take the exam, candidates will be identified through a valid ID.

ARTICLE 5 – COMPARATIVE EVALUATION, THE ADMISSIONS COMMISSION AND ITS DUTIES

Comparative evaluation for admission to each program is based on what is set out in the relevant specific Annex A hereto.

The Admissions Commission that comparatively evaluates the candidates for each doctoral program is appointed by decree of the Rector of Luiss Guido Carli, subject to consultation with the Academic Board (***Collegio dei Docenti***) and consists of at least three members. Such members will either be professors or acknowledged experts in the subject and may be citizens of another country. In any event, the number of professors must exceed the number of experts on the Admissions Commission.

Once the competition exam has been completed, the Admissions Commission ranks, for each doctoral program, the candidates based on the sum of the points awarded to each one.

In the event of a tie between candidates as regards their overall score, the following select criteria shall be used to establish the ranking order for admission and scholarship purposes:

- a) in the event of a tie, the points awarded to Phase One of the selective process (see Annex A to the present Call for Applications);
- b) in the event of a further tie, the points awarded in connection with the Interview (see Annex A to the present Call for Applications);
- c) in the event of a further tie, the points awarded for the Research Proposal (see Annex A to the present Call for Applications);

Notice of admission to the doctoral program will be given by e-mail (to the address stated in the application form) no later than the date specified in the Annex hereto, by which date the ranking order and list of those admitted will also be published on the Luiss website at <http://www.luiss.it>.

ARTICLE 6 – ADMISSION TO THE PROGRAMS

The position will be assigned in the order of the ranking list.

Acceptance of the position entails the obligation to carry out the research project on the topic “Energy Policy”.

Should the successful candidate decline the place or not accept it in time, pursuant to art. n° 7 of this Call, that place will be awarded to the highest-ranking eligible candidate from among those not originally admitted.

ARTICLE 7 – ENROLMENT APPLICATION

By the peremptory deadline of 7 days, counting from the day after publication of the ranking on the University's website (<http://www.luiss.it>) and the associated concurrent notice of admission, admitted candidates must communicate by e-mail (dottorati@luiss.it) their intention to enroll in the doctoral program, failing which they will be excluded.

Moreover, by the deadline that will be communicated in the notice of admission, the admitted candidate must also submit or send by post (the postmark will serve as proof) an application for enrolment in the doctoral program (using the form for such purposes that will be e-mailed to them) and associated attachments, if any, to the PhD & Education Funding Office, Luiss Guido Carli, Viale Romania 32, 00197 Rome, failing which they will be excluded.

Should any successful candidates expressly or impliedly forgo admission, their place shall be awarded to the highest-ranking eligible candidates.

With reference to what is stated in this article, during enrolment in the Doctoral Program timely notice must be given of any change in what was declared at the time of submission of the enrolment application.

ARTICLE 8 – NUMBER OF PLACES ON OFFER AND SCHOLARSHIPS

The places on offer for each doctoral program are those indicated in the corresponding Annex hereto.

Scholarships shall be initially awarded for one year and will be yearly renewed on condition that the candidate has completed the schedule of activities envisaged for the previous year as checked in accordance with the procedures laid down for each Doctoral Program.

The amount the **scholarship**, to be disbursed in monthly installments, is determined in accordance with Ministerial Decree of 18 June 2008 and subsequent amendments. For 2025 the amount of each ordinary scholarship is set by Ministerial Decree No. 247 of 23 February and is worth **€ 16,243.00** subject to payment by recipients of their own share of the relevant social security contributions due.

The amount of the scholarship shall be increased by a maximum of 50% for a total period not exceeding 12 months (18 in case of a cotutelle agreement) if the doctoral student is authorized by the Academic Board to conduct research abroad. That increase may not be used for periods

shorter than one continuous month in the doctoral student's country of birth, citizenship, residence or domicile, unless otherwise determined by the Academic Board.

Commencing from the first year, each doctoral student shall be guaranteed, in addition to the scholarship and within the context of the University's existing financial resources, a budget for research in Italy and abroad that is adequate for the type of program and that in any event is not less than 10% of the amount of the scholarship. Such an amount is guaranteed to doctoral students with or without scholarships.

The scholarship winners must join the 'INPS Gestione Separata' State-run pension fund and send an e-mail to Luiss (dottorati@luiss.it) providing evidence of their registration in that regard. Scholarships are subject to social security contributions payable to the said pension fund in accordance with applicable law, two thirds of which is borne by the University and one third by the scholarship holders.

Doctoral students enjoy the associated benefits and rights.

Scholarships awarded for doctoral programs are not cumutable with other scholarships of any type, including those awarded by other universities/bodies. Moreover, they are incompatible with a role as an employee, or any research and study contributions awarded by Luiss Guido Carli departments or other institutions.

Candidates who have already benefited from a doctoral scholarship in Italy cannot receive another scholarship.

This call does not provide for the allocation of positions without a scholarship.

ARTICLE 9 – RIGHTS AND OBLIGATIONS OF DOCTORAL STUDENTS

Admission to a Doctoral Program entails an exclusive and full-time commitment in line with what is specified in the syllabus for the Doctoral Program concerned, without prejudice to the dispositions referred to in the paragraph 4 and art. 8 paragraph 2, letter b) of the Research Doctorate regulations of Luiss Guido Carli. Enrolled students must attend doctoral courses and activities and continuously undertake study and research within the context of the facilities intended for such purposes and in the manner established by the Academic Board.

The Academic Board may authorize a doctoral student to conduct remunerated activities which enable the achievement of competencies within the educational field of the doctoral program, upon evaluation of the compatibility of the said activity with the productive progress of the

educational and research activities under the doctoral program. The annual maximal limit perceivable by the doctoral candidate compliant to the scholarship, cannot surpass the ministerial minimal amount of the scholarship thereto.

The doctoral students may undertake, as an integral part of their educational program, tutoring activities of those studying for the bachelor's and master's degrees, even remunerated, and also additional teaching activities up to forty hours per academic year, subject to the approval by the Academic Board, without such entailing an increase of their scholarship. For these activities the doctoral students receive cheques referred to in the art. 1, paragraph 1, letter b), of the decree law of 9 May 2003, n. 105, converted, with subsequent amendments, by the law n. 107 of 11 July 2003. The income from other activities must not be superior to the Ministerial minimum of the doctoral scholarship.

At the end of every year of study each student enrolled in the doctoral program must submit a detailed report to the Academic Board on the work and research done. The Academic Board will keep the report and, subject to a positive evaluation of the efforts and work of the doctoral student, will propose to the Rector that the student be allowed to continue his or her studies. In the event of a negative evaluation, the recommendation will be that the studies of the doctoral student should cease.

For proven reasons that do not allow the submission of the doctoral thesis within the time frame of the course duration, the Academic Board may grant, upon request of the doctoral student, an extension of twelve months maximum, without further financial burden.

An extension of the duration of the Doctoral course for a period not exceeding twelve months may, also, be decided by the Academic Board for justified scientific needs, ensuring in this case the corresponding extension of the duration of the scholarship with funds from the University budget. If the Academic Board considers the need to extend the duration of the doctoral course for justified scientific needs, this decision must be taken by the unanimous vote of Board Members.

Doctoral students may request, for proven reasons provided by law, suspension of the course for a maximum duration of six months. No scholarship or other equivalent funding is payable for the duration of the suspension.

The periods of extension and suspension referred to in paragraphs 6, 7 and 8 may not exceed a total of eighteen months, except in specific cases provided for by law.

Una proroga della durata del corso di Dottorato per un periodo non superiore a dodici mesi può essere, altresì, decisa dal Collegio dei docenti per motivate esigenze scientifiche, assicurando in tal caso la corrispondente estensione della durata della borsa di studio con fondi a carico del bilancio dell'ateneo. Nell'eventualità che il Collegio dei Docenti ravvisi la necessità di estendere

la durata del corso di Dottorato per motivate esigenze scientifiche, tale decisione dovrà essere assunta all'unanimità di tutti i componenti del Collegio.

Doctoral students may be suspended or expelled from the program further to a unanimous decision of the Academic Board stating the reasons for such a decision. The measures under Legislative Decree No. 68 of 29 March 2012 are extended to doctoral students in the manner provided for therein. Without prejudice to the norms and protection of parenthood rights referred to in the decree of Ministry of Labor and Social Welfare Decree of 12 July 2007 published in Official Gazette No. 247 of 23 October 2007, the doctoral students in family leave maintain the right to the scholarship. After the suspension period, the scholarship will be paid upon the course attendance is resumed up to the completion of the overall duration of the scholarship period.

ARTICLE 10 – AWARDING OF THE DOCTORATE

The qualification of research doctorate is attained at the end of the doctoral program and is awarded following positive assessment of a research thesis that contributes to the advancement of knowledge or methodology in the chosen field of inquiry after defense of a doctoral thesis. The research doctorate is conferred by the Rector in accordance with the Research Doctorate Regulations of Luiss Guido Carli and applicable law.

The examinations commission for the final exam will be established and appointed by decree of the Rector in accordance with the Research Doctorate Regulations of Luiss Guido Carli and applicable law.

The doctoral student must deliver the final version of the PhD thesis along with a detailed report of the activities performed during the Doctoral Program, as indicated in art. 8 of D.M. 45 of 8 February 2013.

The PhD certificate will be issued solely if within 30 days after defense of the thesis the doctoral student (with the assistance of the relevant staff) files a copy of the final version of the thesis in the University's open access institutional repository, which stores the work and affords public access thereto. The University will arrange for the thesis to be filed with a special purpose ministerial database and the national libraries in Rome and Florence as required by law.
